Founded by local community members in 1988, Venice Community Housing has been developing lasting, neighborhood-based solutions for low-income families and individuals for over 27 years.

VENICE
COMMUNITY
HOUSING

vchcorp.org

We own and manage 195 units of non-profit affordable house, both transitional and permanent. We also provide comprehensive supportive programs including job training, youth development, life-skills coaching and family services to help people regain or retain their self-reliance.

Our permanent affordable housing helps people whose wages haven't kept pace with rents in their own neighborhoods. For the most vulnerable who can't make it without help, we provide permanent housing with supportive services that allow them to live with dignity.

By reducing the number of homeless people on the street, by investing in permanent housing, by training young people to be self-reliant and by building our strategic partnerships for better service delivery, we allow people to transform their lives, making our communities safer, stronger, and more inclusive.
